

# TSAS Newsletter

09/17

September was an awesome month! It was our first full month as a new 7-12 grade school with 450 students! From science fairs, to cross country meets, to day-to-day relationship building, so much great teaching and learning took place that it would be impossible to capture it all right here. TSAS is home!

## SCIENCE MONTH!

September turned into an unofficial Science month with middle school competitions and robotics leading the way! TSAS welcomed two new science teachers this year in grades 7 and 8, and science is soaring!

Ms. Nicholson formed TSAS's first 7th grade roller coaster building contest team in cooperation with the Tulsa STEM alliance! This month, they went to the Tulsa Fairgrounds, competed, and did lots of other fun things throughout the day. Great job!

## TSAS ROBOTICS!

Ms. Lance, Ms. Hahn, and Ms. Ozkiloc are leading an awesome new Robotics team! They are called The Order of the Phoenix, and are gathering sponsorships for an exciting year of STEM competition and learning like never before!

**Don't forget to sign up for the  
PTSA and TSAS Notes.  
Also, please pick up a free/reduced  
lunch form in the office.**
